**RE: SCHOOL TRIP TO SOUTH KOREA**

Dear, Sir or Madam

I am here to promote a school trip to South Korea. The recent result of tourism in South Korea has deeply increased until 2015 and was increased again. I believe going on a trip to South Korea would not only affect the students but the teacher too. Since South Korea has a long history such as the Korean War, Japanese Colonization and the split between the two countries. With all of these long history, it is a good opportunity for the student to know the exact truth in South Korea and to see the culture behind it.

Since it is a foreign affair, South Korea would also be part of it which mean the student can go to South Korea on a school trip to learn more about the Business ethical, culture, and their overall new history. Not many people can go to South Korea but I really hope that students can go to South Korea as it can help them more in the future of their job so it is really a good opportunity to go.

As you can see in the graph, you can see that lot of tourists comes to South Korea on a vacation and until 2015, it has increased rapidly which mean travelling to South Korea is a good choice. Comparing to other countries, South Korea is one of the countries that people want to travel to the most and this graph shows how many peoples come to South Korea which is a piece of great evidence to show it to you. Hope you can let and allow the school trip to South Korea. Thank you.

Your sincerely,

Ji Won Chun
